Education

Florida State College at Jacksonville (FSCJ)
Associate in Science,
Information Technology (In Progress)
Expected Graduation:
[May/2026]

Technical & Language Skills

Languages & Tools: HTML5, CSS3, JavaScript, SQL, Git/GitHub
Software: Visual Studio Code, Microsoft Office, FileZilla, Visio
IT Concepts: Troubleshooting, System Analysis, Use Cases, DFDs, UI Design
Languages: Bilingual – Fluent in English and Spanish
Strengths: Communication, customer service, leadership, adaptability

Professional Summary

Motivated IT and web development student with a strong background in operations, leadership, and decision-making from 6 years of U.S. Navy service. I am currently working at Amazon as an Associate while pursuing an associate's degree in information technology at FSCJ. Skilled in HTML, CSS, JavaScript, SQL, systems analysis, troubleshooting, and bilingual communication (English/Spanish). Seeking an entry-level role in IT support, help desk, or web development.

Experience

AUGUST 2023 - PRESENT

Amazon Associate |

- Perform fast-paced scanning, packaging, and inventory tasks with accuracy.
- Troubleshoot device and workstation issues using standard procedures.
- Support teamwork and assist new associates with training.
- Maintain high productivity, safety compliance, and attention to detail.
- Communicate effectively with diverse teams in both English and Spanish.

JULY 2017 – JULY 2023

Military Experience |

United States Navy — Petty Officer Second Class (Operations Specialist)

- Operated advanced radar, navigation, and tactical systems.
- Analyzed real-time operational data and communicated mission-critical information.
- Led and trained junior personnel, ensuring readiness and discipline.
- Maintained logs, reports, and documentation with precision.

- Demonstrated leadership, teamwork, and calm performance under pressure
- Served on active duty from July 2017 to July 2023; currently serving in the U.S. Navy Reserves.

IT & Web Development Projects

- E-Commerce Website Project: Built a multi-page site using HTML, CSS, JavaScript, responsive design, media, and navigation.
- Contractor's Delight System: Created DFDs, Use Case diagrams, UI storyboards, workflow charts, and NPV analysis.
- SQL Database Projects: Built MyWebDB, implemented primary/foreign keys, indexes, constraints, JOIN queries, and INSERT/ALTER statements.

Communication

At Amazon, I regularly communicate with team members to coordinate workflow, clarify tasks, and ensure safety procedures are followed. This helps reduce downtime and improve team efficiency. It also demonstrated my ability to explain technical processes clearly to others.

Leadership

During my time as a Petty Officer Second Class in the U.S. Navy, I regularly trained and supervised junior sailors in mission-critical operations. This experience strengthened my ability to lead under pressure, communicate clearly, and develop others through structured guidance.
